ADDRESS.

The favourable reception which both the Press and the Public have been pleased to give to the "SHILLING PEERAGE" first encouraged the Editor to prepare the "SHILLING BARONETAGE," the "SHILLING KNIGHTAGE," and the "SHILLING HOUSE OF COMMONS," on a similar plan. He is conscious that even in the present issue of works like these, small as they are, many errors and discrepancies must occur; but he can safely say, that against these he has guarded, not only by stores of information carefully sought out from private sources, and accumulated during many years, but by submitting his statements as to the facts and dates to the kind correction of the families most nearly interested in their accuracy. For the readiness with which a very large portion of these, or members of their families, have answered the points specified in the circulars which have been severally forwarded to them, the Editor cannot be too grateful; and he would be wanting in his duty were he not here to record his thanks for their kindness.

THE HOUSE OF COMMONS.

(Elected June—July, 1886.)

The Registered Electors are given, where possible, according to the Parliamentary Returns issued in 1885; and the Population according to those of 1881.

The line or lines following the name of the constituency show the number of votes polled by the candidate at the General Election, the unsuccessful candidates being printed in *Italics*; where no such return is given, there was no contest. The dates in brackets which follow the names of Members denote the year since which they have continued to represent their present constituencies without interruption.
